

April 30th 2020

Dear Pedro's Coffee Friends,

We realize that you're eager to reopen your business and Pedro's Coffee is here to help!

The Cabinet's declaration to ease movement and open businesses brings about new opportunities. Customers will be able to access your business once again.

There are still challenges that we'll be facing as a business community: transport of goods and employees will still be limited and curfew hours (8PM to 5AM) will need to be respected.

However, we are as committed as ever to offer you the full extent of our range of product & services to your organization:

- Boutique Artisanal Coffee – On-Demand Freshly Roasted
- Sourcing, Leasing & Maintenance of Workplace & Coffee Shop Machines
- B2B & B2C Bespoke Supplier Service
- Complimentary Home & Office Delivery

As seen in other places in the world and indicated by WHO, movement instigates an increase in the number of COVID-19 positive cases so we would like to sincerely assure you that we continue to maintain social distancing guidelines advised by the health authorities and we urge you to do the same!

And from us at Pedro's Coffee, we are confident that your business will continue thriving in this new economic era and we hope to be able to contribute to your success!

Thank you,

Loic RWAGASANA
Directo
